

# **We're Ready**

## **By Daniel Varona**

In my little room, the walls keep saying  
"You're just a middleman for the song that's playing"

I've got two feet and  
I'm sick of the same old beat  
I think we're all ready  
To take it long and steady

I've got two feet and  
I'm sick of the same old beat  
I think we're all ready  
To take it long and steady

I have no doubt, so I'm getting the word out  
It's time we get paid for everything we've made

I've got two feet and  
I'm sick of the same old beat  
I think we're all ready  
To take it long and steady

I've got two feet and  
I'm sick of the same old beat  
I think we're all ready  
To take it long and steady
